

# Bolt switch contact

Incl. 4 meter connecting cable; 3-wired

## Product description

Bolt switch contacts are suitable for monitoring door locking.

Due to the switching lever mounted in rotary bearings, there is no limit to the penetration of the dead bolt. The narrow design and the supplied mounting screw permit the bolt switch contact to be mounted in existing steel frames without striking plate through the bolt cut-out. This facility permits retrofitting also in already installed frames.

## Overview of Advantages

- Pivot-mounted switch lever
- The slim design and the supplied mounting screw also enable the bolt switch contact to be installed in existing steel door frames without striking plates
- It can also be retrofitted into existing built-in frames.

## Scope of delivery

- Bolt switch contact

## Note

- Change-over contact, 3 wires

## Technical data

Max. switching voltage	25 V AC/DC
Switching contact	Change-over contact
Class of protection	IP 54
Response path	3 mm
Connecting cable	4 m
Max. switching current	2 A
